## Business Outlook

- Aging Infrastructure
- Big Data
- Emergency Management and Community Resilience
- Sustainable Infrastructure
- Smart Water Infrastructure

# Bolivar Park Stormwater Capture Project

**As part of the Los Cerritos Watershed Management Plan, the City of Lakewood, California, selected Tetra Tech to provide preliminary engineering, design services, and construction support services for the stormwater and runoff capture project in Bolivar Park.**

# Shanghai Tower

The award-winning Shanghai Tower rises 128 stories, making it the tallest building in China. Shanghai Tower & Construction Co., Ltd selected Tetra Tech to help create a towering structure that is a benchmark for sustainable design and technological innovation in China.

# Using Innovative Technology to Recharge the Groundwater in Southern California

**The Water Replenishment District of Southern California (WRD), selected Tetra Tech to design the Ground Water Reliability Improvement Project (GRIP). Tetra Tech used multiple technologies to treat secondary effluent to a near distilled water quality and re-inject into the groundwater basin.**

# Sustainable Water and Sanitation in Africa

**Tetra Tech led the Sustainable Water and Sanitation in Africa program to improve access to safe, reliable, affordable, and sustainable water and sanitation services for unserved and underserved urban populations in sub-Saharan Africa.**

# Los Angeles Partnerships

## *Los Angeles Environmental Education Fair (LAEFF)*

Tetra Tech has been an active committee member and sponsor of LAEEF since 2017. Through this partnership, Tetra Tech promotes sustainable living through education opportunities, providing local connection opportunities, and community empowerment.

## *STEM Events*

Tetra Tech employees from across its Los Angeles locations support STEM to grow the next generation of innovators and problem solvers. Since the program's inception in 2016, more than 3,000 students in Los Angeles have participated.

## *AbilityFirst*

Tetra Tech maintains a business and charitable relationship with AbilityFirst, a nonprofit organization in the Pasadena, California, area that has served children and adults with physical and mental disabilities for nearly 90 years.
